# Challenge - Recreate the Layout

The object of this challenge is to practice adding elements and layouts using Tkinter.

For these "Recreate the Layout" challenges, I am not so concerned with an exact, pixel for pixel recreation. However, there will be required inclusions listed under each image.

## Mild 🌶

Recreate the following layout:

Be sure to include:

- The window title
- A frame with a color
- 1 label for input that has a text color and a background color
- 1 entry
- A button that is centered at the bottom of the window
- The label shares a row with the entry
- There is padding around each widget to create space
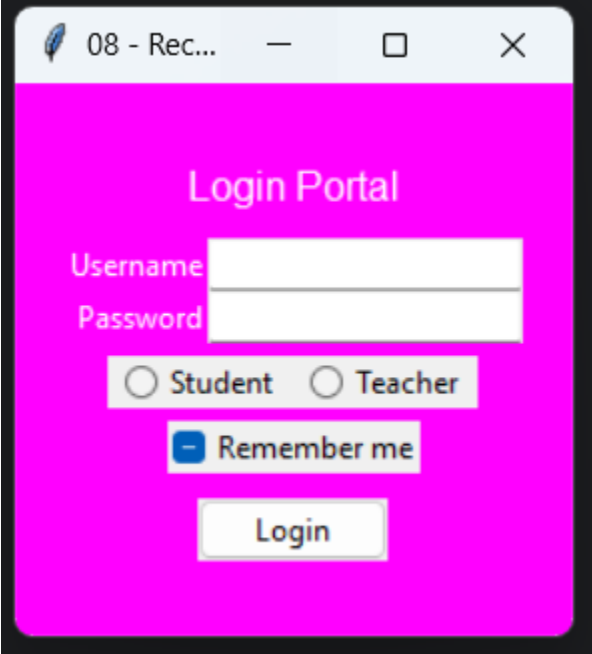

Medium 🌶 🌶

Recreate the following layout:

Be sure to include:

- The window title
- A frame with a color
- 2 labels for input that have background and text colors
- 2 entries
- 1 checkbutton that is centered
- A button that is centered at the bottom of the window
- There is padding around each widget to create space

Spicy 🌶 🌶 🌶

Recreate the following layout:

Be sure to include:

- The window title
- A frame with a color
- 1 heading label that has a different font size, text color, and background
- 2 labels for input that have background and text colors
- 2 entries
- A frame with 2 radiobuttons that share a row that is centered
- A button that is centered at the bottom of the window
- There is padding around each widget to create space
